

Pure air,
because
we care

Daikin Air Purifiers

According to Allergy UK, we spend around 90% of our time indoors.
But did you know the air in our homes can be as much as 10 times
more polluted than the air outside?

From dust, bacteria and viruses, to pet hair, pollen and even fumes from your cleaning products – these airborne particles can become trapped in your home, affecting the health of your loved ones.

Enjoy a breath of fresh air with a Daikin Air Purifier.

Our compact-yet-powerful air purifiers eliminate harmful airborne particles and guarantee cleaner and fresher air throughout your home. So you can breathe easy.

Protect your loved ones

We all want to keep our families safe – especially when it comes to the very young, the elderly, allergy sufferers and those with chronic health conditions. Our range of air purifiers has been designed with your whole family's safety in mind, offering extra protection for the people you care about.

Our patented Streamer technology has been proven to inactivate airborne bacteria and viruses – including up to 99.98% of the human coronavirus HCoV-229E.*

With a Daikin Air Purifier in your home, there's no need to expose your loved ones to draughts, chills and external pollutants through open windows and doors.

Simply switch on your Daikin unit, and enjoy more peace of mind with a home that's fresher and cleaner.

Daikin Air Purifier

Whisper quiet,
powerful purification

The perfect fit for living spaces and bedrooms, the Daikin Air Purifier with Streamer technology has been designed for **near-silent but powerful cleaning capability** – all in one compact unit. So even the lightest sleepers can benefit from a fresher environment.

- › Whisper-quiet, powerful cleaning for fresher air in rooms up to 41m²
- › Small, compact, space-saving design
- › Powerful suction – for fast, efficient air purification
- › Up to 10-year lifespan on dust filters
- › No complicated cleaning necessary – simply use a vacuum or damp cloth
- › Economical to run – costing from just 2.3 pence per day

Daikin Humidifying Air Purifier

Extra comfort for
the whole family

Dry indoor air can cause dry skin, sore throats and exacerbate health issues such as asthma, eczema and allergies. The Daikin Humidifying Air Purifier helps to **keep your home more comfortable** for everyone, while also providing superior purification performance.

- › Simultaneous purifying and humidifying ability – for healthier hair, skin and nails, and a more comfortable atmosphere
- › Compact, space-saving design
- › 'Econo mode' operation mode offers budget-friendly performance
- › Up to 10-year lifespan on dust and humidifying filters
- › Provides extra protection from dry air and viruses

Testing laboratory 'Institut Pasteur de Lille' France, evaluated the effectiveness of Daikin's Air Purifiers against respiratory viruses:

– HCoV-229E (of the same family as SARS-CoV-2, the coronavirus causing the COVID-19 pandemic)

– Influenza A virus subtype H1N1 (causing seasonal flu)

Please note: A Daikin Air Purifier is not a substitute for safety measures including smoke and heat detectors and carbon monoxide monitors. A Daikin Air Purifier may not be suitable for extracting odour components emanating from continuous sources – please email airpurifier@daikin.co.uk for more information.
